

Grading schemes

All grading schemes that are listed here are accessed in Canvas. You find them when you go to the editing mode of an assignment.

- Choose to display grade as letter grade:

Display grade as	Letter grade	▼
View grading scheme		

- Then click on [View grading scheme](#) (above)

A new window pops-up, showing the grading scheme that is currently active. If this schedule agrees with the preferences of the assignment/exam, just close the window (x-in the upper right). If not, you will need to find a suitable grading scheme yourself. Then click:

Select another scheme

A list of all available schemes pops-up. If you click-on a scheme, you will access more information about its ranges and names. All schemes are provided in both English and Swedish. Choose the scheme that suits the assignment/exam, and then go:

Use this grading standard

In the tables here you find more information about the grading schemes that are predefined for courses at Lund University. Here you also find information on **how the chosen grading scheme is related to the number points, and hence determines what number you should enter as points**. If you use a grading scheme with 3 possible grades, you should enter **2** points, where 0 points equals *Fail*, 1 point equals *Passed*, and 2 points equals *Passed with distinction*:

P-PD(50-75%)-eng Helena Elvén Eriksson, Lund University		
P+: Pass with distinction	100% to 75%	
P: Pass	< 75% to 50%	
F: Fail	< 50% to 0%	
		Points <input type="text" value="2"/>

Note! If you don't practice percentage as a grading method, just ignore these values. Then you can choose any grading scheme, as long as the number of grades is correct (view the table below).

Do you wish to define the same grading scheme for all assignments/exams in a course? Do as follows:

- Go to the course start page and choose Settings/Inställningar on the menu to the left.
- Scroll down to Grading scheme, bock: Enable course grading scheme, and then click on set grading scheme and choose the appropriate scheme for the course:

Grading scheme:	<input checked="" type="checkbox"/> Enable course grading scheme
	set grading scheme

The chosen grading scheme will now display automatically when you click on Letter grade in the assignment editing mode.

Grading schemes with 2 alternatives (Pass/Fail)

5: Pass w. distinction	100	5
4: Pass with credit	67 - <100	4
3: Pass	33 - <67	3
F: Fail	0 - <33	0

* If the number of points is intended to be used and compared with points obtained from other assignments, choose "5" points (and ignore the alternatives to give 1 or 2 points since those alternatives are not applicable. If the value of the number of points are not important or rather should be seen as text, it is fine to enter 3 points.
