Hello Suzanne,

I am thrilled to hear that it has been of service to you. I will be taking it down on Canvas.net; however, if you have a Canvas site that can host it, I would be glad to give you the cartridge, which you can then upload to your own space under the original CC-BY-NC-SA license. Would that work for you?

Eric

Subject: cc license for UDL course

Hello Dr. Moore,

I received the notice that you will be closing the UDL course for updates and that it will be re-released at NovakEd.

Will the course content in its current form continue to be available with the CC NA SA license, or will it not longer be visible at all on the canvas.net platform? We refer to your course quite often in our discussions about UDL in our higher ed. networks in Sweden.

Best regards,

Suzanne Pathkiller
